# SUSTAINABLE FABRIC COLLECTION

SHAPING  
THE FUTURE  
OF FABRIC

## WE ARE THE FABRIC OF LIFE

Because we understand our customers commitment to a more sustainable and responsible world, and what this means to the end user, we have developed our Balance Range, a selection of fabrics that are manufactured using environmentally friendly processes without compromising on the quality of our products.

Our Balance Range utilises these greener technologies and initiatives:

### BCI

The Better Cotton Initiative is a holistic approach to sustainable cotton production covering the three pillars of sustainability: environmental, social and economic. This initiative helps reduce water consumption, soil acidification and the impact on global warming.

### CiCLO®

A sustainable textile ingredient in the form of an additive that is combined with polyester at the very beginning of the fibre making process. When CiCLO Polyester ends up in the environment either through washing or end of life of the garment, it behaves like natural fibres, in turn reducing microplastic pollution and textile accumulation.

### ORGANIC COTTON

A cotton that is farmed without the use of synthetic pesticides and chemical fertilisers that are harmful to the air, water, soil and the health of people in cotton growing areas. Organic cotton uses natural fertilisers and soil quality is controlled by crop rotation.

### REMO®

We have partnered with REMO in order to track and trace the cotton used in garments throughout the whole supply chain and product life cycle, helping save energy, CO2 and water consumption.

### REPREVE®

This is a fibre made by transforming recycled materials (including bottles). These fibres have embedded properties like wicking, adaptive cooling and water repellency, for a comfortable and durable fabric.

### TENCEL™

Branded lyocell and modal fibres produced by environmentally responsible processes from the sustainably sourced natural raw material wood. This technology is known for its natural comfort, great strength and moisture absorption properties.

### VORTEX®

With Vortex spun yarns there is no untwisted part. Twist of some degree is present in the entire yarn offering better resistance to pilling and abrasion, less shrinkage and hairiness, as well as greater moisture absorption and drying.

## SUSTAINABLE FABRICS

NEW

### Kielder 185

185gsm

55% BCI cotton / 45% REPREVE recycled polyester  
Leisure finish, 4/1 satin

### Delamere 195

195gsm

65% REPREVE recycled polyester / 35% cotton  
Crease resist finish, 2/1 twill

NEW

### Delamere 210

210gsm

65% REPREVE recycled polyester / 35% BCI cotton  
Crease resist finish, 2/1 twill

NEW

### Delamere 245

245gsm

65% REPREVE recycled polyester / 35% BCI cotton  
Crease resist finish, 2/1 twill

### Coolcel 200 Plus

200gsm

50% polyester / 50% TENCEL™  
Crease resist finish, 2/1 twill

### Varese

205gsm

64% polyester / 33% TENCEL™ / 3% EOL  
Crease resist finish, 2/1 twill

NEW

### Rivington 205

205gsm

65% REPREVE recycled polyester / 35% BCI cotton  
Leisure finish, 2/1 twill

NEW

### Rivington 220

220gsm

65% REPREVE recycled polyester / 35% BCI cotton  
Leisure finish, 2/1 twill

## Sustainability is woven into our Balance Range fabrics

At Carrington Textiles we strive to understand and reduce the environmental impact a garment made with our fabrics has throughout its entire life cycle.

That's why we created the Balance Range, a collection of fabrics that feature sustainable technologies including recycled fibres, responsibly sourced cotton and manufacturing processes that extend the life of the fabric to create a garment that lasts for longer and doesn't cost the Earth!

With a British textile legacy of 130 years, we are the leading European workwear fabric manufacturer, producing 130 million metres a year from our factories in the UK, Europe and Asia.

With our excellent global sales and customer service network, we are able to export our fabrics anywhere in the world.

Whatever the fabric, whatever the application, you can find exactly what you need by using the Fabric Finder feature on our website [www.carrington.co.uk](http://www.carrington.co.uk)

Carrington Textiles are committed to the ultimate in service. This is delivered across the world through strategically located sales representatives, agents and customer service personnel.
